About Me

Experienced and detail-oriented WordPress Developer with 4 years of expertise in customizing WordPress themes and plugins, and 1.5 years of hands-on experience in Shopify development. Proficient in both front-end and back-end technologies, with a focus on enhancing website functionality, user experience, and e-commerce solutions. Adept at collaborating with clients to understand their needs and deliver high-quality, tailored results. Known for strong problem-solving abilities and staying current with the latest industry trends and technologies across both WordPress and Shopify platforms.

Professional Experience

Atologist Infotech | Surat, Gujarat **January 2022 – Present**

Collaborated with clients to understand their specific website requirements and customized existing WordPress themes and plugins accordingly.
Implemented responsive design techniques to ensure seamless user experience across various devices and screen sizes.
Conducted regular website maintenance tasks, including updates, backups, and performance optimization.
Provided technical support to clients, addressing issues related to website functionality, compatibility, and performance.
Collaborated with cross-functional teams, including designers and content creators, to achieve project goals and deadlines.

Softhunters Tech. Pvt. Ltd. | Jaipur, Rajasthan **April 2021 – November 2021**

Develop websites that are responsive and mobile-friendly. Test websites across various devices and browsers to ensure a consistent user experience.
Implement security measures to protect websites from common threats. This includes regular updates of WordPress core, themes, and plugins, as well as using security plugins, strong passwords, and secure hosting environments.

Digital Webspot | Jaipur, Rajasthan **July 2020 – March 2021**

Help clients manage their website content effectively. This includes creating, editing, and organizing pages, posts, images, and other media. Providing training or documentation to clients on how to manage their content through the WordPress dashboard is also part of this responsibility.
Set up and educate clients about regular website backups. Implement automated backup solutions and ensure that clients can restore their websites in case of unexpected data loss.
