

# Devendra Giri Goswami

React Developer

I am a fresher React developer. I have been studying for the last six months. I completed my graduation in BCA. I have created an ecommerce website, a joke generator website, and also developed many UI clones of websites using Tailwind CSS. I am passionate about frontend development and eager to continue learning and growing in the field. My goal is to work on challenging projects that push me to expand my skills and knowledge. I am excited about the opportunities that lie ahead in my career as a React developer.

## SKILLS & INTERESTS

HTML, CSS, Tailwind CSS, JavaScript, React,

GitHub, Redux Tool Kit

## EDUCATION

RNT PG College, Kapasan  
BCA

(August 2021 - April 2024)

Percentage : 70

## ACADEMIC PROJECTS

### E-commerce Website

(2024)

E-commerce Website Effortless E-commerce with React, Tailwind CSS, and Redux This is a fully functional e-commerce website built with modern technologies for a seamless shopping experience.

Key Features:

- Intuitive Shopping Cart: Effortlessly add, remove, and adjust quantities of your desired items, all within the cart.
- Real-time Updates: Experience instant changes in your cart total as you interact with items.
- Centralized State Management: Redux ensures a consistent and synchronized shopping experience across the entire application.
- Modern Tech Stack: Built with React for dynamic UI, Tailwind CSS for clean and responsive design, and Redux for centralized state management.
- Fake Store API Integration: Leverages a sample API to showcase full e-commerce functionality.

This project demonstrates a strong understanding of modern web development practices and creates a user-friendly platform for online shopping.
